Front Management

When it comes to the busy life in the fashion industry, models rely on their agencies to keep the peace. Now there's a young agency taking the industry by storm, Front Management. Front Management is the brainchild of president and director Christian Alexander, a seasoned player in the Miami modeling market for the last six years. "After working for several top agencies, I decided it

was time to move forward and pursue a better future... I really needed something more to grow without any restrictions," says Alexander, the former NYC fashion illustrator and 30-something Brooklyn native. "...I consider myself a real go getter and felt I had to use my knowledge to create something different I could share with the world."

And create he did. Today this boutique agency represents over 100 women and 30 men with over 15 years of industry knowledge. Their cutting-edge approach to the fashion world and aggressive team ensures that their models get the best service by facilitating their journey to the top. "In most businesses you often hear people say not to get too close with your co-workers or employees. I on the other hand think the opposite. I believe it's important to have a connection with both the models and your clients," says Alexander. "This industry is built on relationships, it's very trendy and very fickle. ...As stressful as it can be to maintain all these relationships it can also be a lot of fun. Most importantly, you get to meet and work with some really creative and amazing people."

Front Management's youthful spirit and savvy business sense has allowed their agents to market their models to top fashion clients such as Nicole Miller, Perry Ellis, Roberto Cavalli, Baby Phat and many more. Their models can be seen on the coveted pages of *Vive* magazine, *Cosmo*, *Vogue*, *Elle*, *Glamour* and more.

Front Management is located at 311 Lincoln Rd., Suite 310, in Miami Beach. For more information call 305.673.2225.
